Solvay Dental 360™

Solvay Dental 360™ is a new dental business and medical device line of Belgian multi-specialty chemical group Solvay, a global leader in high-performance healthcare polymers used in medical and dental devices, equipment and instrumentation, including implantable applications.

With over 35 brands available in more than 1,500 formulations, Solvay has the broadest portfolio of high-performance healthcare polymers in the world. Solvay has over 150 years of experience developing cutting-edge materials, of which more than 25 years as a leading polymer supplier to the healthcare industry, where its products are used in implantable devices, medical and dental devices, equipment and instrumentation, serving orthopedic, cardiovascular, renal and other markets.

The new Solvay Dental 360™ business line was developed by Solvay's Specialty Polymers Global Business Unit. Through products like Ultaire™ AKP, and other innovations to be commercialized in the future, Solvay Dental 360™ is committed to developing new and innovative materials that improve patient outcomes and advance the dental industry. Solvay Dental 360™ also provides unparalleled expertise in operations, technical support and education. The revolutionary products from Solvay Dental 360™ will help improve operational efficiency and patient satisfaction, and offer profitable growth for both dental labs and dentists alike.

For more information, visit WWW.SOLVAYDENTAL360.COM.

Featured Product: Ultaire™ AKP

Ultaire™ AKP is an innovative aryl ketone polymer which provides a biocompatible, lightweight, metal-free, non-irritating and more aesthetically pleasing alternative to traditional metal RPD frames. It also expedites and facilitates the work of dentists and lab technicians through a digital workflow. Ultaire™ AKP is the first product in the Dentivera™ milling disc family.

The Dentivera™ milling disc made from Ultaire™ AKP has earned the European Commission CE mark and 510(k) clearance from the U.S. Food and Drug Administration (FDA) and is made in the United States under strict FDA and International Organization for Standardization (ISO) guidelines.

For more information about Ultaire™ AKP, Dentivera™ milling discs or Solvay Dental 360™, visit WWW.SOLVAYDENTAL360.COM.
